

Earth Angel's mission is to integrate a standardized method of environmental accountability throughout the entertainment industry. We took great steps toward that in 2018 on our green sets with new sustainability strategies, better data collecting and improved eco-analysis and cost-savings reporting. Here's some of the positive impacts we achieved across all our 2018 productions.

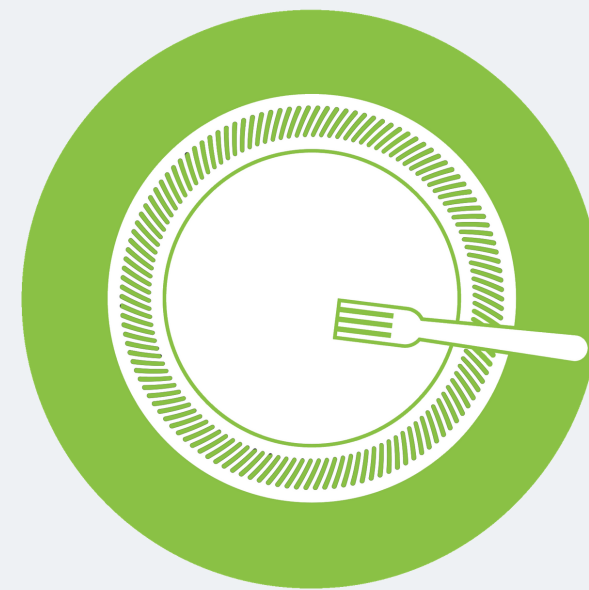

**1,618**  
metric tons  
CO2e avoided

**592,955**  
single-use water  
bottles avoided

**23%**  
average reduction  
in carbon footprint

**20,592**  
meals recovered  
for local food  
banks

**757 tons**  
diverted from  
landfill

**\$346,401**  
worth of materials  
donated or reused  
in the circular  
economy

**74%**  
On Set diversion  
rate

**\$533,418**  
SAVED by  
sustainable efforts

**211**  
trees saved from  
recycled paper use
